

HALLOWEEN SCENE #1 by Theo Halladay
[Draw freehand or print.]

Here is a myld Halloween sene for beginners. Print the page onto the heviest paper u hav. Color the figures and the ground peece; or u may print on orange paper and evrything can be orange, with the tree in its fall plumage. Cut out the shapes & mount them on a fresh peece of paper as a sene. Or tak them onto a bulletin bord.

If u like u can draw the figures freehand instead of printing them out. Draw around a pill-bottle cap for the moon. Tu cut it tu a haf-moon, lay the cap on it agen to draw the cut-out arc; then cut. Put the tree on its trunk.

Draw a pumpkin like this one & cut it out. If u hav a paper punch, u can uze that to cut out eyes. The eye-holes can be blak or can hav yello lite shining thru. U can ad a wich, cat, bat or goast figure.
